AGV AND VALENTINO ROSSI PRESENT THE MUGELLO 2019 GRAPHIC

SCARPERIA, 1 JUNE 2019. AGV UNVEILS ITS SPECIAL EDITIONS HELMET FOR THE 2019 ITALIAN GRAND PRIX. VALENTINO ROSSI IS OUT ON TRACK AT MUGELLO WITH BRAND-NEW CELEBRATORY LIVERIES.

For more than twenty years, **the Mugello Grand Prix** has been an opportunity for **Valentino Rossi** to flaunt helmets with brand-new liveries and find an outlet for his imagination. The canvas for these works of art, always different, is the pure carbon fiber shell of the top of the range AGV racing helmet.

Rossi, together with Aldo Drudi, the historic designer of his helmet graphics, has come up with a new and bright livery that interprets the Italian flag motif like never before. The 2019 Mugello helmet features broad brush strokes, with the Italian tricolor that stands out on the top of the shell. The white, red and green are flanked by complementary colors like orange, fluorescent pink, blue and classic yellow. On the back of the helmet, under the spoiler, are the sun and moon with a thin yellow line on a white background; under these, a hand-drawn 46.

The replica helmet (2.500 pieces in limited edition) will be available from November 2019 on the latest evolution of the Pista GP R model at € 1.600,00 (RRP including VAT). Orders are now being taken: please refer to your usual AGV retailer for further information.

This limited edition will reproduce the graphics of Valentino's helmet, except for the logos of other sponsors and the visor components and accessories.
